

ASANNAGAR M.M.T. COLLEGE
DEPARTMENT OF POLITICAL SCIENCE
PROGRAM OUTCOME (CBCS)

Political Science is a social science that includes state, government, political sociology, international relations, global politics and administration. The study of Political Science helps us to enhance our ability to knowledge of the discipline, problem solving, research-related skills, team work, and our writing skills. Political Science is excellent preparation for effective citizenship as it trains the students in the importance of participation and prepares them to take part in the political life. The students with a Political Science degree have many job opportunities in both the public and private sectors.

The following points are the expected outcome of the three years B.A Programme

- 1 After graduating in Political science, many students have the advantage of studying law and subsequently establishing themselves in the field of law.
2. A degree in political science can lead to powerful careers in international organizations, associations, non-profit organizations, campaign management.
3. Various types of government job exams including civil services also require knowledge about Constitution of India, Indian government and politics. In this case, it is very convenient for Political science students to get this type of jobs.
4. A graduate in Political science has many attractive career options that include political journalism, civil services, political advisors, state and local governments, research and teaching.
5. By studying organizational and administrative behavior in public administration, students are expected to acquire leadership management skills.
6. Students can get a better understanding of the political systems of different countries even through comparative approaches and methods.
7. For students of Political Science, it becomes easier to understand and improve the knowledge of bilateral relations of various countries with India.
